BAD FOR MACHINES.

Why the Consolidated Rejects

the Springfield Scale. CRITICISM OF THE UNION'S OFFER.

tion That It Was Gotten Up for the Benefit of Hand Mine Men and Operators-Alleged Unfairness Pointed Out-McBride and Adams Meet at Columbui and Tell the Convention What They Think of Each Other-Field Notes.

St. Louis, June 20.-General Manager Simpson, of the Consolidated Coal company, has given out a statement as to why his company will not sign the Springfield, Ills., conference scale. Simpson says: "The scale demands an advance in the wages of machine miners in south ern Illinois in which wages have not been reduced for years, while at the same time it reduces the wages in hand mines, where the wages have already been cut below the corresponding rates paid in the machine mines. It demands a large advance over 1893 rates from machine mines in southern Illinois, while Pennsylvania and Ohio have gone to work at a reducduction of 14 per cent., and while north ern Illinois only demands the old rate. Iu the Danville district the rates have always been 10 cents below the adjoining bituminous districts in Indiana.

Other Inequalities Alleged. "Still an advance of 10 cents is now asked at Danville, while Indiana takes a cut of 14 per cent by the Columbus settlement. It proposes a uniform rate of 1.2 cents per square foot for machine mining in all central and southern Illinois, entirely ignoring the varying conditions which prevail in the various mines. This would enable men working in some mines to earn \$5 per day, while in others not over \$2.50 could be earned by the same labor. It changes the relation which the wages of the helpers at machine mining have borne to those of machine runners from 66% per cent, to 83% per cent., although the present ratio has been in force and without complaint for ten years.

Scheme in the Rule for Measuring. "It proposes that the space cut by machines shall be measured every day in-stead of weekly or monthly because it knows that the sum of the daily measure ments will over-run the total taken at the end of the month and thus give the machine runner an unfair advantage. The demand of an increase from 18 to 325 to men loading after machines in the Peeria district would increase loaders' wages from about & to \$3.50 per day. These men are laborers only and not in any sense skilled workmen. The price of 15 cents per ton, for loading mine run, is an increase of 15 per cent, and would increase that class of loaders from \$1.55 to \$2.13 per day. These men, too, are common

Good Enough for Hand Mining.
"The Springfield scale is a very clever scheme on the part of the hand miners and operators, and one which would benefit them greatly, while at the same time handicapping machine mined coal to such an extent that but comparitively little of it could be sold and but very little work would be given to machine employes. As the Consolidated Coal company operates machine mines almost exclusively it is in a position to know exactly what the new scale means, not only for itself, the new scale means, and will not for a but for its employes, and will not for a moment consider it, even if its employes fail to realize the significance of the change

M'BRIDE AND ADAMS CLASH.

COLUMBUS, O., June 20 .- No action has been reached by the convention of Ohio miners who oppose the scale agreed to by the national officers, but the temperature in the convention hall has been decidedly warm. McBride is here, not being willing that Adams should have no one to meet any statement he might choose to make-it appearing that the reconciliation at Nelsonville was a dramatic scene gotten up for the occasion, if it happened at all. At this convention yesterday afternoon District President Adams and Secretary Pierce explained the

objects of the conventian.

Then National President McBride made an explanation. He said Adams was an unsafe leader and the miners of Ohio would realize it fully in three months Adams might be sane on some thing, Mc-Bride stated, but he was insane on mining questions. Adams followed with a very heated and personal reply. It was openly charged in the convention that the n tional officers had been in collusion with the operators and had sold out to them. The convention adjourned to today without action, but the delegates are in favor of returning to work, and they say it is the only course open to them.

NORTHERN ILLINOIS MEN.

They Will Hold a Convention at Streator-McBride Denounced

SPRING VALLEY, June 20.-At a mass meeting held here to hear the reports of the delegates from the Springfield convention the McBride scale was bitterly denounced and its author scored as a rudas who sold out the men. J. W. Murray, vice president of the state union, was authorized to call a delegate convention of the miners of northern Illinois at Streator, June 21. The delegates to the conference were instructed, if compelled by the circumstances of the case to ac-cept the Columbus scale, to do so under protest until such time as the markets warrant the demand for better wages. The sense of the meeting was that the miners of the northern district will not work very long under the reduction and that another strike will be precipitated in the fall should the operators refuse a

Offer of the Operators Renewed. SPRINGFIELD, Ills., June 20.—The coal perators of the Springfield sub-district met here with thirteen out of twenty-two shafts represented. They decided to re-new their offer made to the miners ten days ago, viz. Thirty-five cents per ton gross, and 52% cents net, or \$2.25 per day. This is 10 cents less than the price de-manded by the miners.

Skirmish in Pennsylvania. MOUNT PLEASANT, June 20.-The Se wickley district was the scene of consider erable excitement, caused by the Frick company making preparations to start its Mammoth plant. No sooner were men put to work to lay a water line in the yards than the striking Slavs swooped

down and drove the few deputies and workers like chaff before the wind. The tables were turned in the afternoon, when Sheriff McCann appeared on the scene at the head of forty more guards. When the officers charged the foreigners broke and fied in every direction, hotly pursued by the deputies, who caught six of the mob's leaders. The only man injured was a Slav, who was shot in the leg.

Situation on the Gogebie. Inonwood, Mich., June 23.-Nearly all the trammers, timbermen and laborers at all the mines on the Gogebic range have struck and it is probable that a gen-eral strike will be ordered at once. Near-ly all miners are still at work and are tramming their own ore. It a strike is ordered the unionists will undoubtedly attempt to prevent non-union miners from working.

Coal Mine Opened at Decatur. DECATUR, Ills., June 20.-The Niantic coal mine has been opened with thirty men at work. The Decatur Coal company owns the mine and will ship the coal to this city. Men who went to the Decatur mines to work were met by a committee of strikers and induced to stay away.

MUTINY, CRIME AND DEATH.

A Bogus Doctor Gets a Ship's Crew Into a Serious Positio

SAN FRANCISCO, June 20.-The British bark Inversie, Captain Willox, has arrived sixty-four days from Newcastle, N. S. W., with a most remarkable story of mutiny and crime. Just before the vessel left Newcastle a man calling himself Dr. Armitage applied for passage for himself and wife to San Francisco. Captain Willox gladly took them on board, as his own wife needed the services of a physician. About two weeks ago at sea Mrs. Willox gave birth to a child and Armitage officiated as surgeon. He used instruments in such a manner that the child died, and the captain, seeing that he was un-skilled as a physician, ordered him away from his wife. Armitage appealed to the mate and crew telling them that the captain was killing his wife.

The crew led by the mate mutinied, and the captain, after being drugged, was locked up. He managed to get out just in time to see his wife die. Several times he was imprisoned by the crew, but he man-aged to break out. Armitage's real name is Eustace Alexander. He deserted his wife and baby in Sydney and fled to Newcastle with another woman, where he joined the Invernie. The bark, crew, and passengers are now in custody of the port warden, and the police will make arrests.

THE SUN DANCE OF THE CREES. Ordeals Suffered by Four Indians at

Havre, Mont.
MINNEAPOLIS, June 20.—A special to The Journal from Havre, Mont., says: The Cree sun dance has just been concluded here after going on for three days. Every sheriff in the state has been instructed to prevent the dance at any hazard, but there was no interference here. Three braves were hung up by thongs thrust into slits in their breasts slashed by Little Eggs, the chief. All fainted before the ordeal was over. A young buck had slits cut in his shoulders and to the inserted thongs were tied four buffalo skulls, which he dragged after him. Eighty pieces of flesh were cut from his arms to be kept as tokens.

Accident to Race Horses. CHICAGO, June 23.-The accident on the Great Western by which six cars loaded with horses were derailed resulted in the following injuries to the men in charge of the horses; John Riley, legs broken and body badly burned; John Lakney, crushed in shoulder; H. F. Christian, severely bruised; Michael Woods, arm broken and spine hurt. The borses killed were fourteen in number and ten others were so badly burt so that they will never be of use on the race track again. The owners of the horses are W. H. Roller, J. A. Batcheler, Louis Ezell and C. K. Kellythe latter owing the injured horses, but none of the killed.

American Protectives Incorporated. SPRINGFIELD, Ills., June 20 .- The secre tary of state has licensed for incorporation the state council of the American Protective association of Illinois, located at Springfield, without capital stock; object, to educate members in faithful devotion to the cause of self-government; universal advancement of civilization; institute and maintain solemn protest against slavery of superstition and tyranny of creed; maintain and protect a free, non-sectarian pub-

Life Insurers at Unicago, CHICAGO, June 20.-The Life Underwriters' National Association, the object of which is acquaintance, co-operation, sympathy and good fellowship, is holding its fifth annual meeting at the Auditorium here. It is the largest gathering in the history of the organization and the nembers are having a "heap of fun."

Body of the Third Man Recovered. LEAD CITY, S. D., June 20.-The body of William H. Chubb, the last of the three ill-fated miners entombel at Ajax No. 1 mine, has been recovered, death having re sulted from suffocation.

Her Objections. O mai ten, thou art passing fair; No charms with thite are worth comparing,

I love thee, yes, I vow, I swear -Said she, "I much object to swearing." O, from my suit, love, do not shrink, I feel thy bright eyes' fascination Intoxicating love-draughts drink-Sasd she, "I hate intoxication " If thou reject, my race shall end Beneath the turf the earth embracing, The last remains of thy fond friend-Said she, "I hate the turf and racing."

But if he had taken with him as a present ottle of Dr. Pierce's Favorite Prescription be would have been more successful in his suit. She doubtless owed many of the charms which caplivated him to its virtues. For brightening woman's eyes, and giving her that healthy look so much admired by the opposite sex, it has no equal. Guaranteed to cursor benefit in fall cases of "Female Weakness," Irregularity, painful per-lods and kindred aliments, or money paid for it returned.

"Royal Buby" Rye Whisky Is a "Rye as is a Rye," naturally ripened and ree from all foreign flavor and adulterants, guaanteed pure and over eleven years of age, recom mended to the connoisseur as a meritorious arti-cle worthy of the confidence of invalids, conva escents and the aged. See that our name blown in bottle. \$1.00 per quart bottle. "BOYAL RUBY" PORT WINE,

Bladder or Urinal Trouble? Kidney Trouble

Rock Island, Ill.

Do you want immediate relief and

SAN JAK

For sale by all druggiets. Read what Dr. Snyder, formerly

of Freeport. says:

Chicago, March 7, 1893

Dr. Burnham, 84 Adams street, City:

My Dear Doctor—My attention was first called to "San Jak" last year in the case of Captain J. M. Broslus, of Atlant., Ga., who was attacked in this city with acute nephritis (inflamed kidneys) and cystitis (inflamedion of hisdder). After prescribing the usual remedies without avail. "San Jak" was suggested, and the improvement was so marked after the first dose that a complete cure followed so speedily, that I at once commenced an investigation of its merits, and have since prescribed it in almost every known form of kidney, blaider, urchrai, vaginal and catarrhal troubles, followed in each instance by the happiest results of Freeport. says:

ney, blasder, mrethral, vaginal and catarrhal troubles, followed in each instance by the happiest results

In my own case (cystitis) the relief it gave me in a few days was simply marvelous.

A case of enuresis in my own family was very much improved by a few doses, and radically cared in less than a week. From practical experence in a number of bad cases of lencorrhoes, I am free to say that I have found no remedy that is equal to "San Jak."

And while I have never before given a professional endorsement to a proprietary remedy, I say unbesitatingly and without reserve, that I consider "San Jak." a vertiable boon to humanity, and after applying it to the surest professional tests, can say with confidence it is better than it is recommended to be.

I shall continue to prescribe it in all cases of genito-urinary or catarrhal troubles in preference to all other known remedies.

As a perve tonic, especially in the cases of weak, unaemic children, "San Jak" can be relied upon fully and entirely. The delicious taste of the medicine is also in its favor, in prescribing it for children. I am at present using "San Jak" as an alterative in skin d seases and several cases of chronic eczema having veilded so readily to its influence that I shall continue to use it in similar cases, feeling confident that it will meet all the influence that I shall continue to use it in similar cases, feeling confident that it will meet all the influence in such cases.

Very Sincerely,

(Signed) Geo. W. SNYDER, M. D. Ask your Druggist for home ref
